

Claim 6, line 2, change "is" to --in--.

11. (Amended) A portable scent delivery system comprising:

a case;

a fan for moving scent-laden air through the system, said fan housed in said case;

one or more fragrance containers housed in said case, each of said fragrance containers having an inlet valve and an outlet valve, said inlet valve connected by means of inlet tubing to said fan;

a mixing bed housed in said case, said mixing bed having an inlet connected to said outlet valve of each of said fragrance containers by means of an outlet tubing and having an outlet connected to nasal tubing, said mixing bed forming a mixture of scent from scent from said fragrance containers;

a scent delivery device for wearing by a user of said scent delivery system at the wearer's nose so as to deliver said mixture of scent directly to the user's nose and to remove said mixture of scent from the wearer's nose, said delivery device having an inlet connected to said nasal tubing and an outlet connected to exhaust tubing; and

an electrical source housed in said case, said electrical source providing electricity to said fan so that said fan can move
